

Please don't hunt XM radio, the instant traffic report is instant, with more and more cars on the road, 33% more traffic in the last 10 years, we need instant traffic reports, It could save lives and keep traffic tieups down. most radio stations report the traffic , every 15 mins, or so. I have had XM for two years plus and this traffic report was a suggestion I made to XM years ago. This is a great service and it can only get better as XM incudles more citys.
Thank You, Dane Williams Ennis, TX
